

The Biblical Historical Timeline

It is estimated that there are nearly 6,900 spoken languages in the world. So people ask?

- Were there that many people at Babel?

- At least 78 families came out of Babel with a new language (this excludes Noah, Shem, Ham, Japheth, and Peleg (descendants of Peleg, such as Abraham were Hebrews and spoke Hebrew (Eberew), who was presumably rather young).

- So how do we get ~7,000?

Variants of English in 700 years

Beginning of <i>Matthew</i> 6:9	Date
Our Father who art in heaven and/or Our Father who is in heaven	Late Modern English (1700s)
Our father which art in heauen	Early Modern English (1500–1700) (KJV 1611)
Oure fader that art in heuenis	Middle English (1100–1500)
Fæder ure þu þe eart on heofonum	Old English (c. A.D. 1000)

- According to Ethnologue and Vistawide World Languages, who both do linguistic studies, they claim there are:
- 94 language families!

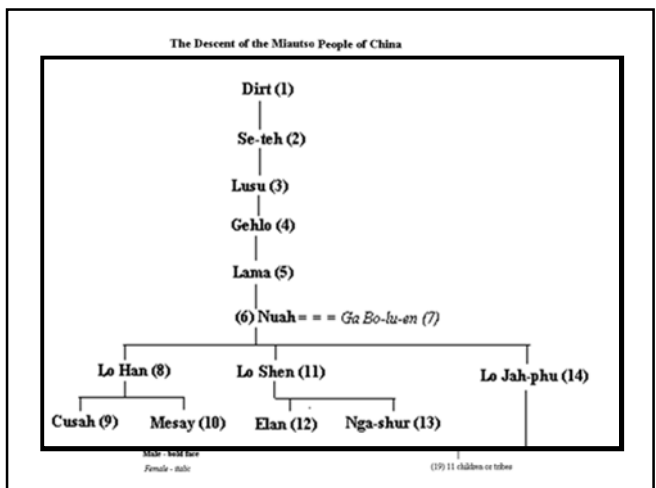

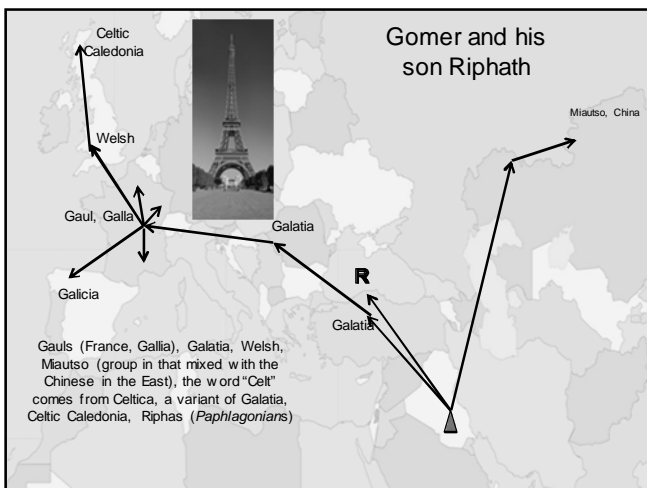

Noah's grandsons are mentioned throughout the world!

- Japheth: Meshech: *Mechera* and the Meschera Lowland
- Japheth: Javan is the Hebrew name for Greece
- Ham: Land of *Canaan*
- Ham: Cush is Ethiopia and still called that today
- Ham: *Mizraim* is Egypt
- Shem: Assyria is derived from *Asshur*
- Shem: *Aram's* language was Aramaic and Arameans (Syria)

Japheth:

- 1. Gomer 2. Magog 3. Madai 4. Javan 5. Tubal 6. Meshech 7. Tiras

Genesis 1

EXEGESIS

'Reading out of'

1 In the beginning God created the heavens and the earth.
 2The earth was without form, and void; and darkness was on the face of the deep. And the Spirit of God was hovering over the waters.
 3The light. And God said, "Let there be light," and there was light.
 4And God saw that the light was good; and God divided the light from the darkness.
 5God called the light Day, and the darkness He called Night. So the evening and the morning were the first day.

Regular length day

How Long Did the Work of Creation Take?
When Moses writes that God created heaven and earth and whatever is in them in six days, then let this period continue to have been six days, and do not venture to devise any comment according to which six days were one day. But, if you cannot understand how this could have been done in six days, then grant the Holy Spirit the honor of being more learned than you are.

Why don't many Christians/Christian leaders believe the days in Genesis 1 are literal 24-hour days?

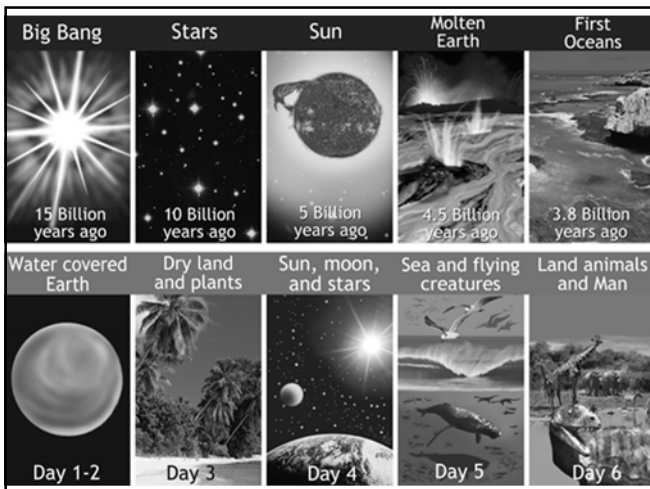

The Big Bang

Paul Davies, physicist and evolutionist, in his book - *The Edge of Infinity*, describes the big bang this way:

"[The big bang] represents the instantaneous suspension of physical laws, the sudden abrupt flash of lawlessness that allowed something to come out of nothing. It represents a true miracle..."

Why is this more scientific than in the beginning God created?

Big Bang vs. Creation

The order of events in the creation is inconsistent with the evolutionary model.

Order of Appearance (Evolution)	Order of Appearance (Bible)
1. Sun/stars existed before the Earth	1. Earth created before sun/stars
2. Sun is Earth's first light	2. Light on Earth before sun
3. First life = marine organisms	3. First life = land plants
4. Reptiles predate birds	4. Birds predate land reptiles
5. Land mammals predate whales	5. Whales predate land animals
6. Disease/death precede man's sin	6. Disease/death results from man's sin

It is apparent that the most straightforward understanding of the Genesis record, without regard to all of the hermeneutical considerations suggested by science, is that God created heaven and earth in six solar days, that man was created in the sixth day, that death and chaos entered the world after the Fall of Adam and Eve,

What about C14 dating?

What about radiometric dating methods?

Radiometric Dating Assumptions

Potassium-argon (K-Ar) Dates in Error

Volcanic eruption	Rock formed	Date by (K-Ar) radiometric dating
Mt Etna basalt, Sicily	122 BC	170,000–330,000 years old
Mt Etna basalt, Sicily	AD 1972	210,000–490,000 years old
Mt St. Helens, Washington	AD 1986	Up to 2.8 million years old
Hualalai basalt, Hawaii	AD 1800–1801	1.32–1.76 million years old
Mt Ngauruhoe, New Zealand	AD 1954	Up to 3.5 million years old
Kilauea Iki basalt, Hawaii	AD 1959	1.7–15.3 million years old

Rocks of Known Age

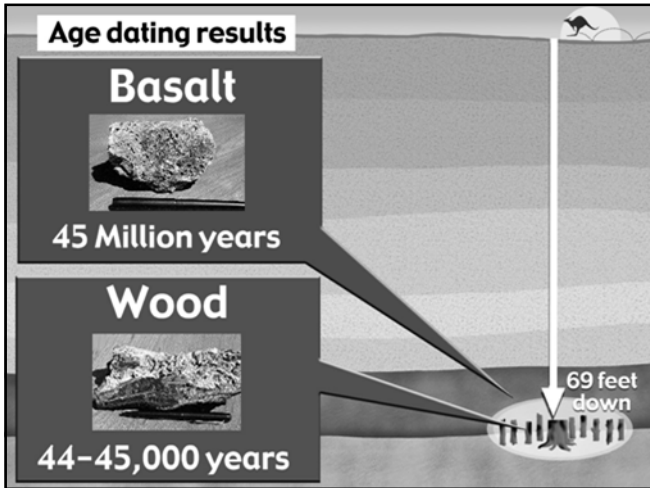

Radiometric dating clearly does not work.

Rocks of Unknown Age

Radiometric dating is assumed to work.
